

**440**

**(449.440, minus offset, with a PL of 131.8)**

Good evening, this is [ [My Name · My Call sign](#) ] net control this evening for the Ventura County Area 2 ACS/ARES check-in net on the Amgen repeater at 449.440 MHz, minus offset, with a PL of 131.8.

Area 2 serves the Conejo Valley, including Newbury Park, Oak Park and Thousand Oaks. This net operates every Tuesday at about 1910 hours local time.

If there is any emergency or priority traffic before I begin the net, please come now.

**Pause, and listen for traffic -**

For all those checking in, please give your call sign, your first name, ACS ID number if you have one, and state if you have traffic for this net, or any traffic to pass onto the county net.

In addition to check-ins on this frequency, we are also accepting check-ins on:

- **2 Meter** (146.850, minus offset, with a PL of 94.8)
- **220** (224.700, minus offset, with a PL of 156.7)

If you can, please check in on these other repeaters.

Any members or visitors wishing to check -in, please come now...

Record check-ins.

**END NET AT APPROXIMATELY 1925 HOURS**

Thank you for checking in tonight and for supporting ACS/ARES. Anyone wishing to sign up for membership, please contact the Area 2 EC, Jerry B. Goldman KC6JSO at 805 405-8213

I would like to thank Amgen for the use of its repeater, and for its continued support of ACS/ARES Area 2.

This is [ [My Name · My Call sign](#) ] closing the net at \_\_\_\_\_ hours. The repeater will now return to normal use. The frequency is clear.
